

KNOW THE FIRE DRILL

SHOOTING SAFETY STARTS WITH FIRE SENSE

EXPLODING TARGETS ARE NEVER ALLOWED ON PUBLIC LANDS.

AVOID STEEL CORE/TIP/JACKET BULLETS.

Choose paper or clay targets & lead core bullets in outdoor areas.

CALL 911 TO REPORT A FIRE

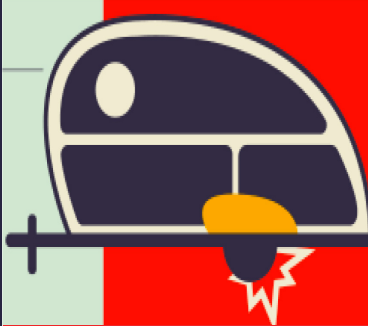

Stay on the phone with the dispatcher until help arrives.

Keep a fire extinguisher, shovel & extra water on hand in case a fire does start.

VEHICLE SAFETY STARTS WITH FIRE SENSE

DON'T DRIVE ON DRY GRASS OR BRUSH. HOT EXHAUST PIPES AND MUFFLERS CAN CAUSE FIRES.

BRAKES WORN TOO THIN MAY CAUSE METAL TO METAL CONTACT WHICH CAN CAUSE A SPARK.

CHECK TIRE PRESSURE

Maintain proper tire pressure. Driving on exposed wheel rims will throw sparks.

Keep a fire extinguisher in your vehicle & learn how to use it.

KNOW THE FIRE DRILL

Visit UtahFireSense.org and UtahFireInfo.gov for more information

KNOW THE SAFETY TIPS

CHOOSE AN AREA FREE OF VEGETATION & AVOID SHOOTING ON WINDY DAYS.

Never place targets on boulders or rocky areas with dry vegetation. Keep targets on dirt or gravel.

Only detonate exploding targets in lawful areas that are clear of dry vegetation.

KNOW THE SAFETY TIPS

PRACTICE SAFE TOWING. DRAGGING CHAINS THROW SPARKS.

Ensure tow chains are the correct length & won't drag on the ground.

Make sure your vehicle is properly maintained with nothing dragging on the ground.

Use appropriate safety pins & hitch ball to secure chains.

OHVs and dirt bikes must be equipped with spark arrestors.

DEBRIS BURNING SAFETY STARTS WITH FIRE SENSE

CAMPFIRE SAFETY STARTS WITH FIRE SENSE

EQUIPMENT SAFETY STARTS WITH FIRE SENSE

PROPERLY BURNING DEBRIS HELPS PREVENT WILDFIRES.

PRACTICE SAFE CAMPING PROCEDURES.

USING EQUIPMENT SAFELY HELPS PREVENT WILDFIRES.

Notify your local fire department and obtain the appropriate approval or burn permit for your area.

CALL 911 TO REPORT A FIRE

An adult must be present until the fire is out.

Keep a fire extinguisher, shovel & extra water on hand in case fire escapes!

DROWN THE FIRE, STIR WITH A SHOVEL.

FEEL TO ENSURE NOTHING IS HOT.

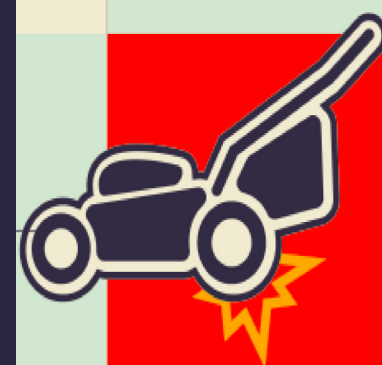

REPEAT UNTIL THE FIRE IS COLD TO THE TOUCH.

An adult must be present until the fire is out.

PUT OUT YOUR CAMPFIRE

Keep a shovel and water nearby in case the fire escapes.

DON'T MOW IN ROCKY AREAS.

Metal blades striking rocks can cause sparks & start fires. Mow before 10am, but never when it's windy or dry.

CALL 911 TO REPORT A FIRE

Stay on the phone with the dispatcher until help arrives.

Keep a fire extinguisher, shovel & extra water on hand in case a fire does start!

KNOW THE SAFETY TIPS

DON'T BURN IN HOT, DRY AND WINDY WEATHER CONDITIONS.

Clear all flammable material within a 10 ft distance.

Dry vegetation found on site may be burned unless prohibited by local ordinances.

Keep debris in small piles of no more than 4 ft wide.

KNOW THE SAFETY TIPS

CHECK FIRE RESTRICTIONS BEFORE LIGHTING A FIRE.

Use an existing firepit if one is present.

If there isn't an available firepit, clear a flat, open area down to the soil, at least 5 ft from the fire's edge.

Keep the fire no larger than necessary.

Make a depression in the center of the clearing to build your fire in. Place a ring of rocks.

KNOW THE SAFETY TIPS

KEEP ALL EQUIPMENT IN PROPER WORKING ORDER & FREE OF CARBON BUILDUP

Use the recommended grade of fuel & don't top it off.

In wildland areas, spark arrestors are required on all portable, gasoline powered equipment.

In wildland areas, grinding and welding require a permit during fire restrictions & 10 ft of clearance.

Don't drive your vehicle onto dry grass or brush.
